

Music Literacy Teaching Project

By: Edgar Carrillo

The Staff

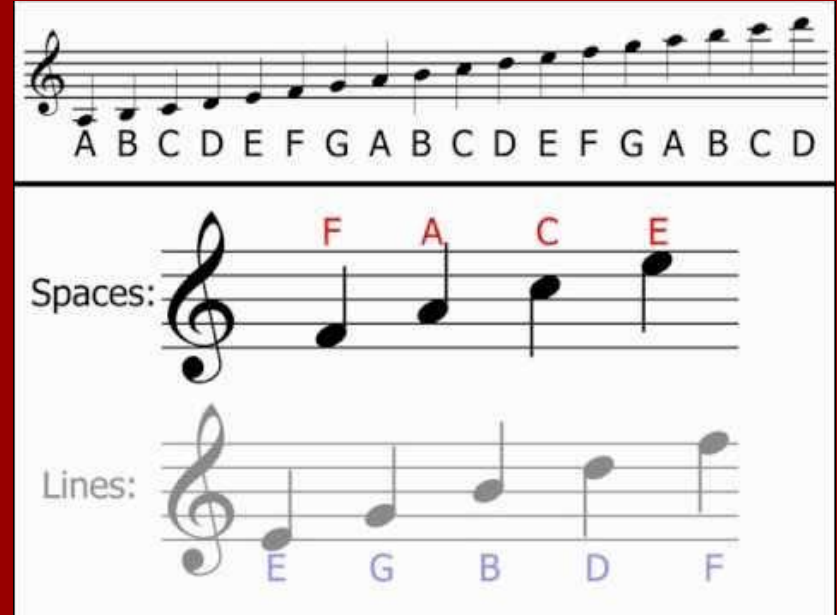

Music is written on the staff. It is made with 5 line and 4 spaces. The music notes are placed on these lines and spaces to indicate their pitch. The lines and spaces are numbered from bottom to top like a foundation of a building. The way that the notes are positioned indicate the pitch. the higher the note, the higher the pitch.

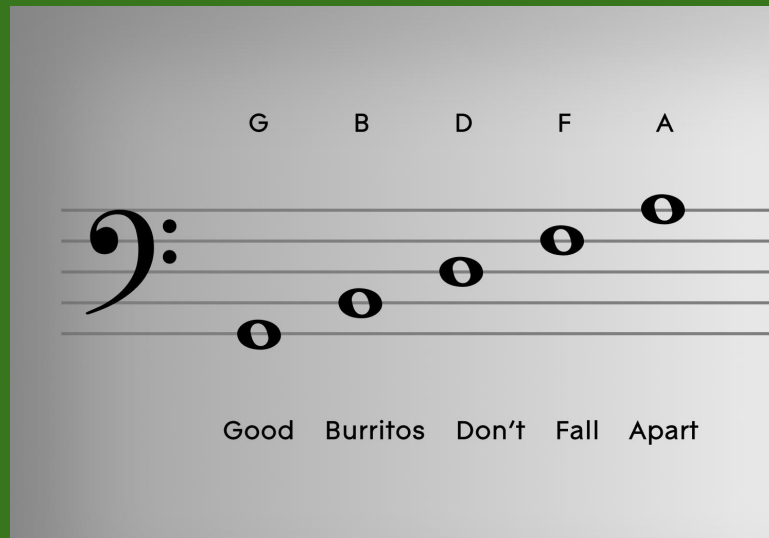

Treble Clef

The Treble Clef is also known as the G-Clef because it is placed on the G line. A Clef will always be at the beginning of each staff. Each type of clef has its own alphabetical order. For this case, the treble clef uses “E,G,B,D,F” for the lines and “F,A,C,E” for the spaces. To help remember the order of these letters, remember that the letters on the staff are in alphabetical order if you combine the lines and spaces. Also, use little catch phrases like “Evil, Gummy, Bears, Destroy, France”.

Bass Clef

The bass clef is also named as the F-Clef. As mentioned with the treble clef, a Clef will always be at the beginning of each staff. Instead of using E.G.B.D.F on lines, the letters are G,B,D,F,A. Likewise on the spaces, Instead of F.A.C.E, the letters become A,C,E,G. Each Clef will have a different set of letters matching the different melody of each Clef. You can also use a little catchphrase for the Bass too. As shown you can use Good,Burritos, Don't, Fall, Apart. Whatever helps you remember the lettering can be used.

Whole, Half, and Quarter Notes

Notes are very important to writing music, notes are symbols used to represent musical sounds in lower or high pitches. The duration of a note is found by the value of a note.

Whole Note:

A Whole note lasts for four beats in common time (4/4). The Whole note is the longest note value used in writing music.

Whole Note Symbol

Half Note:

A half note lasts two beats unlike the whole note (2/4). It is half the note value of a whole note.

Half Note Symbol

Quarter Note:

A Quarter note lasts for one beat, a quarter of the length of a whole note (1/4).

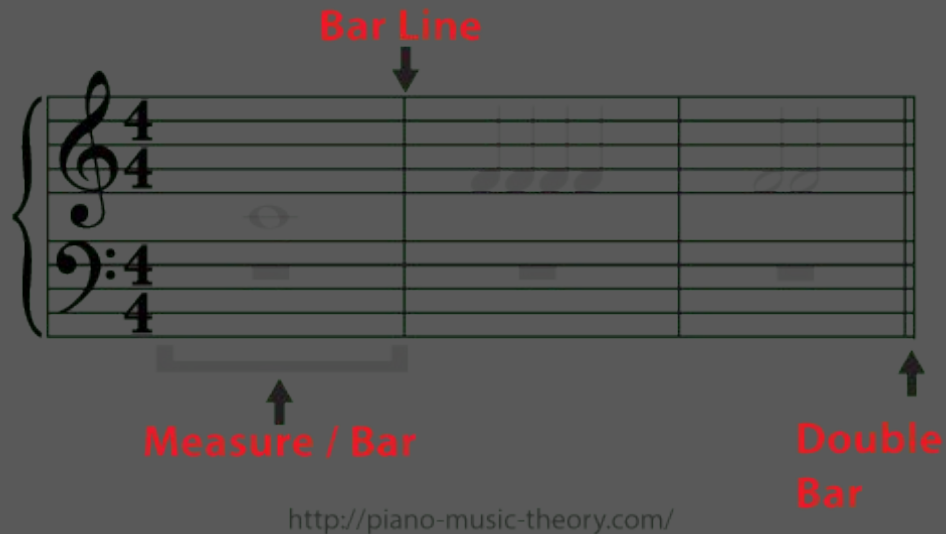

Quarter Note Symbol

Measures, Bar Lines, Double bar lines, Final bar lines

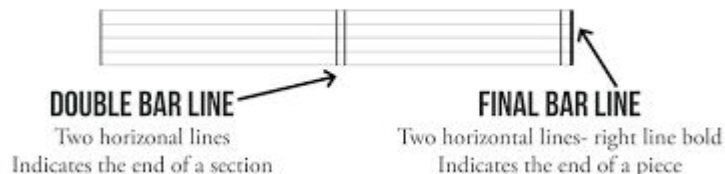

When Writing music, Music is divided into equal parts called Measures.

Bar lines are vertical lines that show the beginning and end of measures.

Now there are two types of Double bar lines. Double bar is two thin lines that indicate the end of a section of music. A Final bar line is one thin and one thick line that indicates the end of a piece of music.

DOUBLE AND FINAL BAR LINES

The End
